It takes more than clinical excellence to build and maintain a successful community-based palliative care program. Planners and leaders who are seeking to build or expand their community-based palliative care service offerings now have a reliable reference for establishing billing practices: *Billing for Palliative Care Services.*

This four-hour course, written by palliative care billing experts Jean Acevedo and Dr. Janet Bull, includes background information, steps to follow, resources, and a complimentary Community-Based Palliative Care Budget Worksheet to help assure a strong foundation for your program!

---

**Building a Community-Based Palliative Care Program Series:**

This course is one in a series of 10 courses that offer organizations in every stage of palliative care development, and at every point in the implementation journey, a guide for diversifying your revenue, accessing new patients (or the same patients, sooner), and developing stronger relationships with health systems, other providers, and payers.

**Who Should Take This Course:**

- Clinical program leaders  
- Administrative leaders  
- Physician office staff  
- Billers for home health services in any organization  
- Organizations considering implementing a community-based palliative care program
